**Listing and Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application.

1. (currently amended) A process for controlling an audio/video digital decoder comprising the following steps:

continuous acquisition of a digital audio/video stream, the digital video stream being composed of an ordered sequence of images;

video decoding of all the images of the sequence;

receiving a request for displaying only part of the images;

responsive to the request, generating a video signal based on only part of the images of the sequence;

decoding the digital audio stream into an audio sequence in synchronism with the video decoding.

2. (original) A process according to Claim 1, comprising the step of - playing the audio sequence.

3. (original) A process according to Claim 1, wherein said part is a single image of the sequence.

4. (original) A process according to Claim 1, wherein the sequence comprises images of a first type and images of a second type and wherein said part is limited to the images of the first type.

5. (original) A process according to Claim 1, wherein the acquisition is a reading from a digital medium.

6. (original) A process according to Claim 1, wherein the acquisition is a reception of a digital stream.
